We are forever thankful to our ancestors for the pristine condition in which they left the Columbine Hondo area. It is now our duty to see that area permanently protected as part of the National Wilderness Preservation System so that future generations may know and enjoy it as we have. Designation as wilderness will ensure the unspoiled condition of this important headwater area continues for those who will come after us. We thank Senators Jeff Bingaman and Tom Udall for working to give permanent protection to this precious land.

Help protect our wilderness, water, and heritage. www.columbinehondo.org
