The permanent protection of the Hondo/Columbine Wilderness Area is of great significance to the people of Taos Pueblo because we believe all wilderness areas are sacred. The Great Spirit made man the keepers of the Land and all that live upon it; thus we are responsible to the future generations of all Americans to preserve the last of the wild places in America. Taos Pueblo and its future generations are grateful, and wish to thank Senators Bingaman and Udall for this bill.

Help protect our wilderness, water, and heritage. www.columbinehondo.org
